DECREASE IN TONNAGE

DELAYED FREIGHTS MOVED AND TRAFFIC IN USUAL CONDITION.

Extensive Improvements Commenced by Indianapolis Lines-The New Rates on Grain and Flour.

Last week there was quite a falling off the loaded-car movement, delayed freights having been well cleaned up in the two preceding weeks, and business is now at its normal. Engines and cars are well employed and rates better maintained, it is stated by freight officials, than at any time in the history of the roads. Whether present conditions can be maintained should traffic decline is questioned, but for months past business has been so heavy that freight solicitors have not done much soliciting, and the question has been how to furnish cars, the rate being of little importance. The activity of the Interstatecommerce Commission doubtless has alarmed the well-known rate-cutting lines, and they, as well as competitors, are in no manner shading rates, while the small shipper is no longer harping on the advantages the big shipper has over him. The grain movement East is the lightest in any April of many years, while in other lines of freight business compares well with last year. West-bound business is a surprise, being heavier than east-bound-something that had never been known previous to the spring and summer of 1901, and freight officials say that like conditions are likely to grain and provisions for export via the Passenger and freight. WITH ITS ADVENT SPRING TRADE

Lower Prices Also Will Rule-Change in the Potato Situation-Grain Markets Are Very Light.

It is quite evident that a few days of genuine spring weather will cause a break in prices in many lines of goods, more especially in vegetables, produce and cerealine products. On Commission row prices of Irish potatoes are still stiff, notwithstanding large accumulations, but it is noticeable that buyers are nearer controlling the market. Sweet potatoes are scarce and high, the season being nearly over. Green stuff is weak and in good supply, but prices in this line are not as high as in The improvements that the Big Four some others. Oranges are considerably firmer, although they seem plentiful. Lemons are in better request at unchanged 4.75; spring wheat, \$5.50@5.75. prices. Strawberries are still too high to admit of fast sale. During the week there were no new developments in the grocery trade and only the navy bean market is unsettled. Sugars and coffees rule steady and are moving in the usual volume. The flour market rules weak and concessions on quotations are made to effect good sales. Dried fruit and canned goods move fairly well but hardly as briskly as a month ago. The produce market is active, and, notwithstanding the increase in receipts, prices rule very firm and poultry and eggs are higher than a week ago. The provision market is active, seldom more so than for the last three months, which is due to the high prices which prevail on fresh meats. prices. Dry good were active during the week and on Friday several lines of dry goods were advanced, chiefly bleached and brown sheetings. Seldom are the iron and hardware merchants more busy than at present, and, taken all in all, the business of the week ended on April 5 was fully up to expectations and in several lines in excess of the corresponding period of last

In future, therefore, a price of 5 cents for granulated will mean the same whether quoted by the American company, the National company or the Arbuckles, and it will not be complicated by any special or extra discounts. During the last year or so there has been considerable irregularity, so far as discounts have been concerned, and refiners have charged their rivals with making secret discounts while apparently maintaining list prices. The new terms will go into operation on all sugar sold on and after April They follow: List price, 15 cents per hundred pounds, thirty days; discount, 1 per cent, for cash seven days; extra discount of 5 points to be paid at end of sixty .days to all who have lived up to agree- per keg, \$4; mule shoes, per keg, \$4.50; ments. The Precise Reasons Why Leading

Educators Rank Them High. The Journal called attention several days ago to a compilation of opinions of one hundred leading educators of the country relative to the standing and merits of the come rear admirals. Coghlan is an extra schools of different cities, and to the fact that nineteen out of the hundred gave Indianapolis schools the first place-a larger number than were able to agree upon any other city. It appears that these opinions own responsibility for the edification of the | plaintiffs and breaking the will. new board of school directors who are deschools may be improved. Springfield, his home at Rochester, aged sixty-six. Mass., received twelve votes out of the hundred as having the best schools, Chicago twelve, Cleveland eleven, New York and Boston eight ach, other towns and cities trailing down the list, and ending with one voice for Cincinnati, one for Providence, R. I., and two for St. Louis. The reasons ly wounded a man whom she accused of given by the nineteen men for preference luring her daughter away from home, and for Indianapolis are summed up by the seriously wounded her intended victim's compiler of the opinions as follows:
